Appears as though the Warren District was going to turn out and and Cleveland took the afternoon see support a real ball team doesn't it? Douglas, with the exception of one ing duel between Scott and Steen, inning wherein the dust got into the craw of the visitors and allowed a Batter Who Is Playing With and the latter triumphed because his most of runs across the plate, put up a good exhibition of the game. The copport was better. Russell, who public demands more ball and the management is going to give it. With the progress of the season, better ball is promised. Manager Hagy is making good with the fans. Every game is better than the last one, and laurels for best stick work in the Pamid-senson will find the Warren District with the best team in the great cific Coast league were wrested from southwest.

> Jimmy Callaghan's White Sox are not alone in one respect. The Warren District Grays can also qualify as the "hitless wonders," but time lished here. Elliott is credited with an remedies many allments.

We often wonder what baneball would be like if there weren't four lity on the ball. His week's average bundred and seventy umpires in the stand, whenever there are four hundred was 393. NEW YORK. May 10.-New York and sevenly people in the stands. But at that there is no local complaint,

"Suppose," asks a Los Angeles paper, in a line under a cartoon, "suppose runs to their credit, ling pitchers, passing fourteen men that men in their blind struggle for power and their insensate determination and hitting two others, and throwing to best each other were to pursue their battle to the death until the last the pitcher 165 times and garnered 19 two beings on earth were left, and one of them was out and down, what then runs, while maintaining an average We'll bite. What?

> Churley White startled the fighting world by out-fighting Willie Ritchie the .300 mark. He has taken part in in a 10-round no-decision bout in Milwankee this week.

There seems to be no explanation of Ritchie's poor showing. He has proved himself another heavy this department. slmply wasn't as good as White was.

All of which puts White forward as the logical man to meet the winner of the Ritchie-Welsh battle.

As the area over which the stripping has been completed, or partially completed, contains an average of about 1.500,000 tons per acre. this work has resulted in removing a quantity of capping equivalent to the complete stripping of 180,000,000 tons of ore. Of this quantity there have seen mined and shipped to the mills 28,720,224 tons, or about 16 per cent. The thickness of capping as compared with that of ore within the vertical boundaries of the developed area is about one to four; but, of course. vertical planes cannot be maintained in actual operation, as in order to mine with steam shovels it is necessary to preserve safe slopes above the working levels. Part of the material is low-grade ore, but the ratio of waste to ore in the slopes themselves, is considerably greater than one to he four, and, therefore, the actual ratio of stripping to ore, as both must be removed from the ore-hearing area,

it is borne in mind that the area of the company's mining domain is 726 acres and that to date stripping operations. have touched only 171 acres and that the capping so far removed represents acres, it can be seen what a gigantic
